Making Payments **Human** Again

Global accounts.
Personal **support**.

Breinrock provides businesses with multi-currency accounts and payment solutions built around real relationships.

SCAN TO VISIT [BREINROCK.COM](https://breinrock.com)

Global payment solutions for personal and corporate clients.

One account. One dashboard.

Most businesses run payments across four or five platforms. One for accounts, another for FX, a third for cards, a fourth for payouts. Breinrock replaces all of it with a single system, and a Relationship Manager who answers when you call.

40+

currencies to send and receive

130+

countries across the combined network

6

offices, from Toronto to Dubai

1

dedicated Relationship Manager per client

Accounts

Dedicated IBANs in USD, EUR, GBP, and CAD. Send and receive in 40+ currencies. Our accounts enable you to send and receive locally in AED as well.

Breinrock Payment Network

Local payment execution in the UAE, UK, EU, US, and Canada. Rails: SEPA, Faster Payments, ACH, Fedwire, Interac, Aani, EFT. Payments processed as domestic, not international.

BPN International

Local payout capability in 60+ countries. Payouts only, sending funds out to suppliers, contractors, and partners. An alternative to SWIFT-heavy payout models.

Foreign Exchange

Real-time conversion across USD, EUR, GBP, and CAD, executed inside the platform. No forced conversions, no third-party routing.

Cards

Standard, Elite, and Elite Plus for personal clients, plus a Corporate card. Elite Plus includes travel insurance, 1,700+ airport lounges, concierge, and a dedicated payments assistant.

Banking-as-a-Service and Escrow

BaaS as a full white-label platform or API-only integration. Escrow holds funds until pre-agreed conditions are met, used for real estate and high-value cross-border deals.

FOR PROPERTY DEVELOPERS AND
BUYERS

Property money, moved properly.

Deposits arrive from a dozen countries. Contractors invoice in three. Your payments should not be why a deal slips.

Collect deposits from overseas buyers

Buyers pay into your dedicated IBAN in multiple currencies, including locally in AED.

Stop losing days to correspondent banks

Payments in the UAE, UK, EU, US, and Canada run on local rails, processed as domestic. Fewer intermediaries, fewer delays.

Hold funds until conditions are met

Escrow releases on the signed-off milestone, from off-plan instalments to title transfer. Pay contractors and brokers in 60+ countries once it clears.

Talk to a Relationship Manager.
