The Reality

Real Estate Is Complex. Your CRM Shouldn't Be.

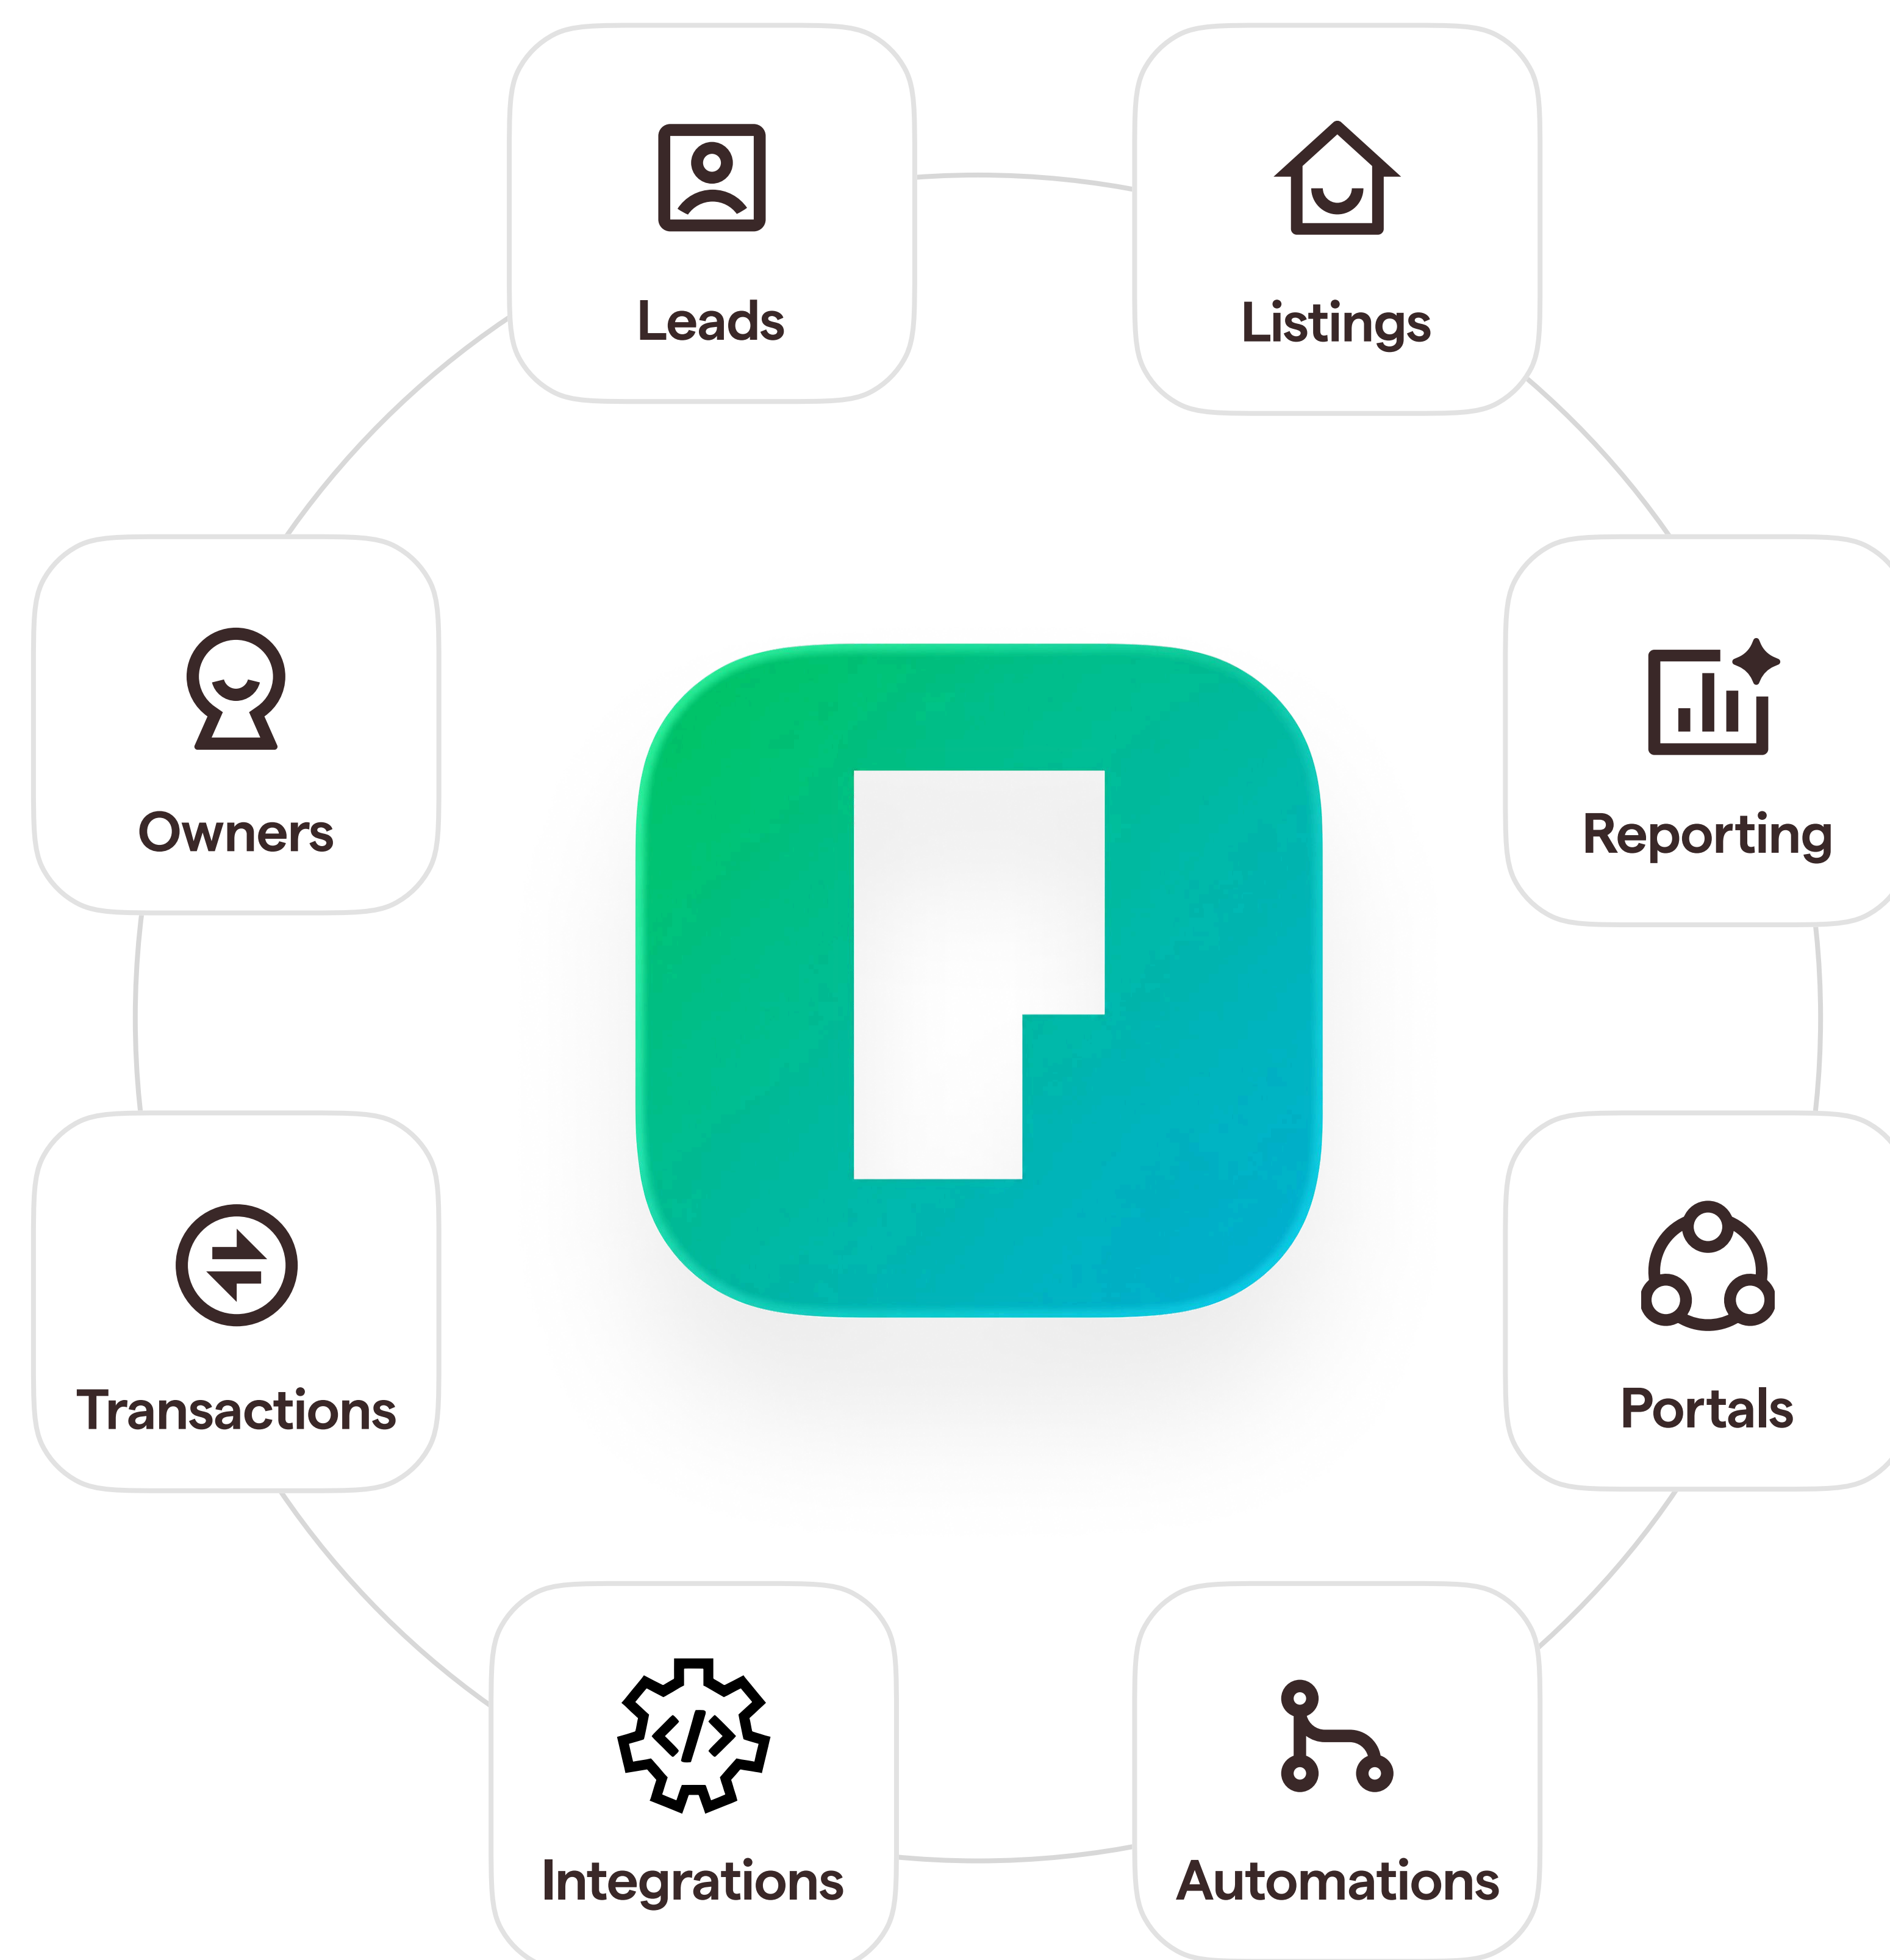

- ✗ Leads coming from multiple channels.
- ✗ Agents managing follow-ups differently.
- ✗ Listings changing every day.
- ✗ Owners waiting for updates.
- ✗ Deals moving without visibility.
- ✗ Managers trying to understand what's really happening.

Generic CRM wasn't built around **how real estate actually works.**

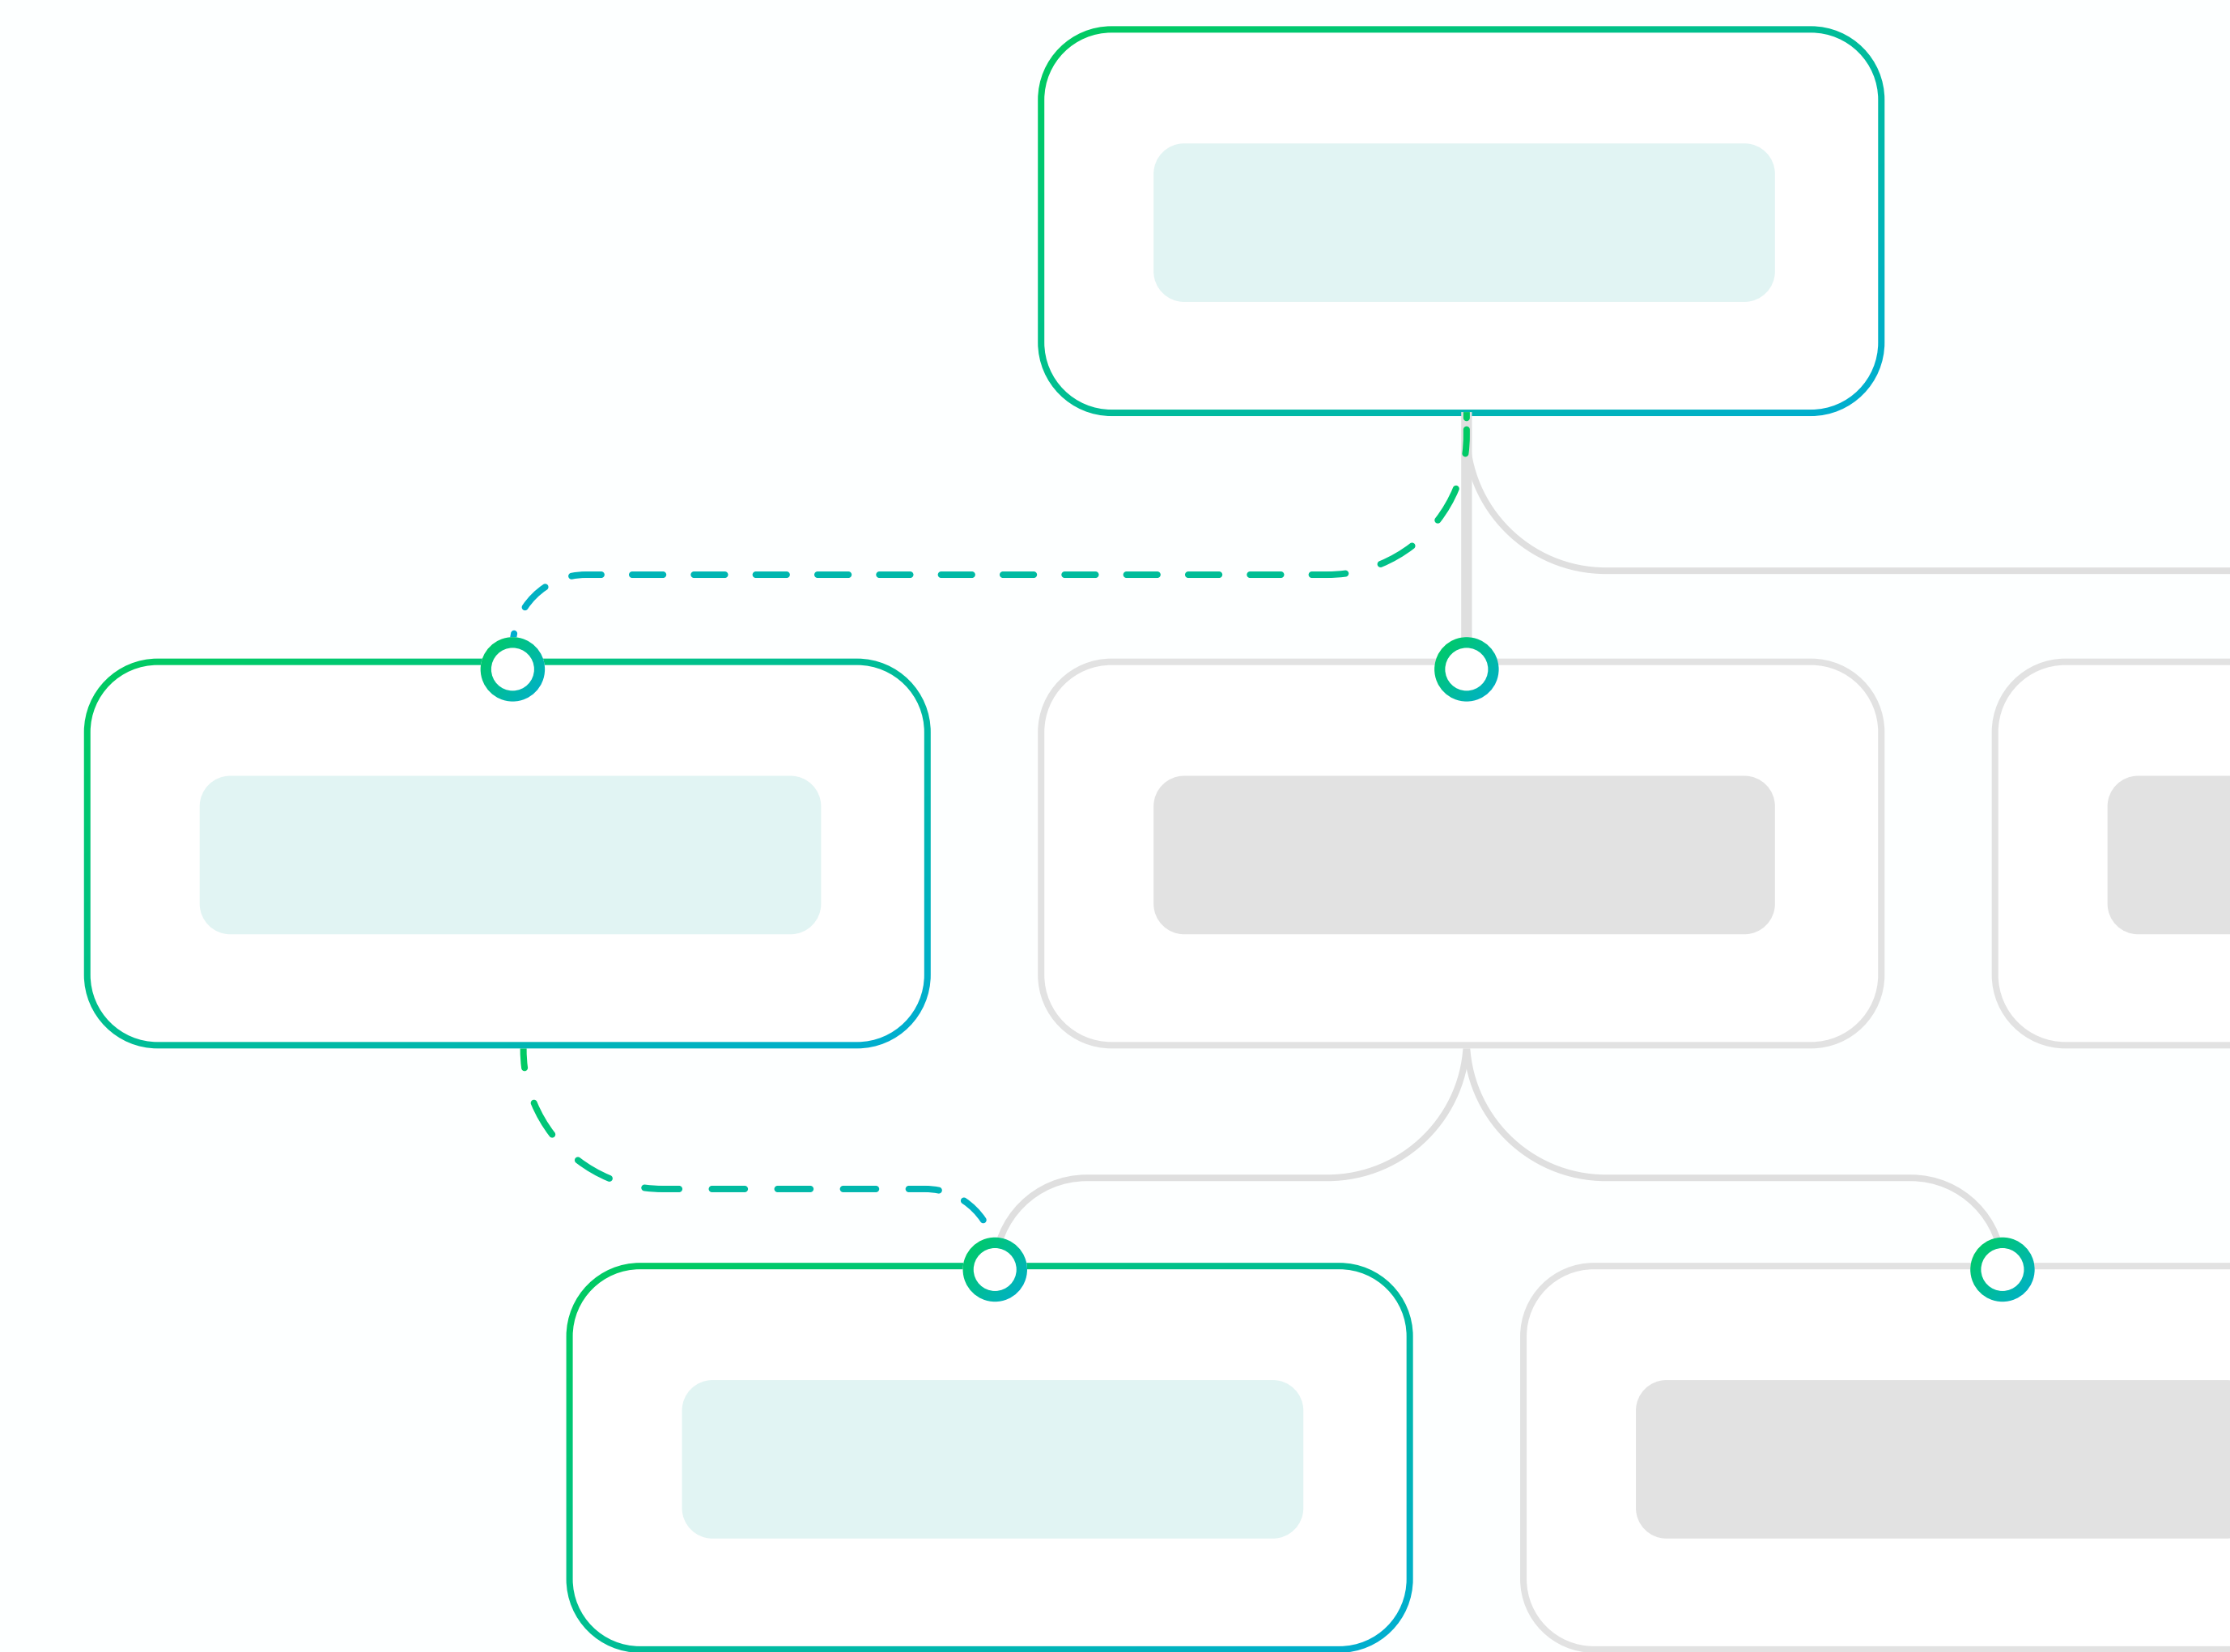

Your Entire Real Estate Operation.

One System.

Pixxi connects your people, data and workflows in one structured system — from the first enquiry to the final transaction, every part of your business stays connected.

Leads & Workflow

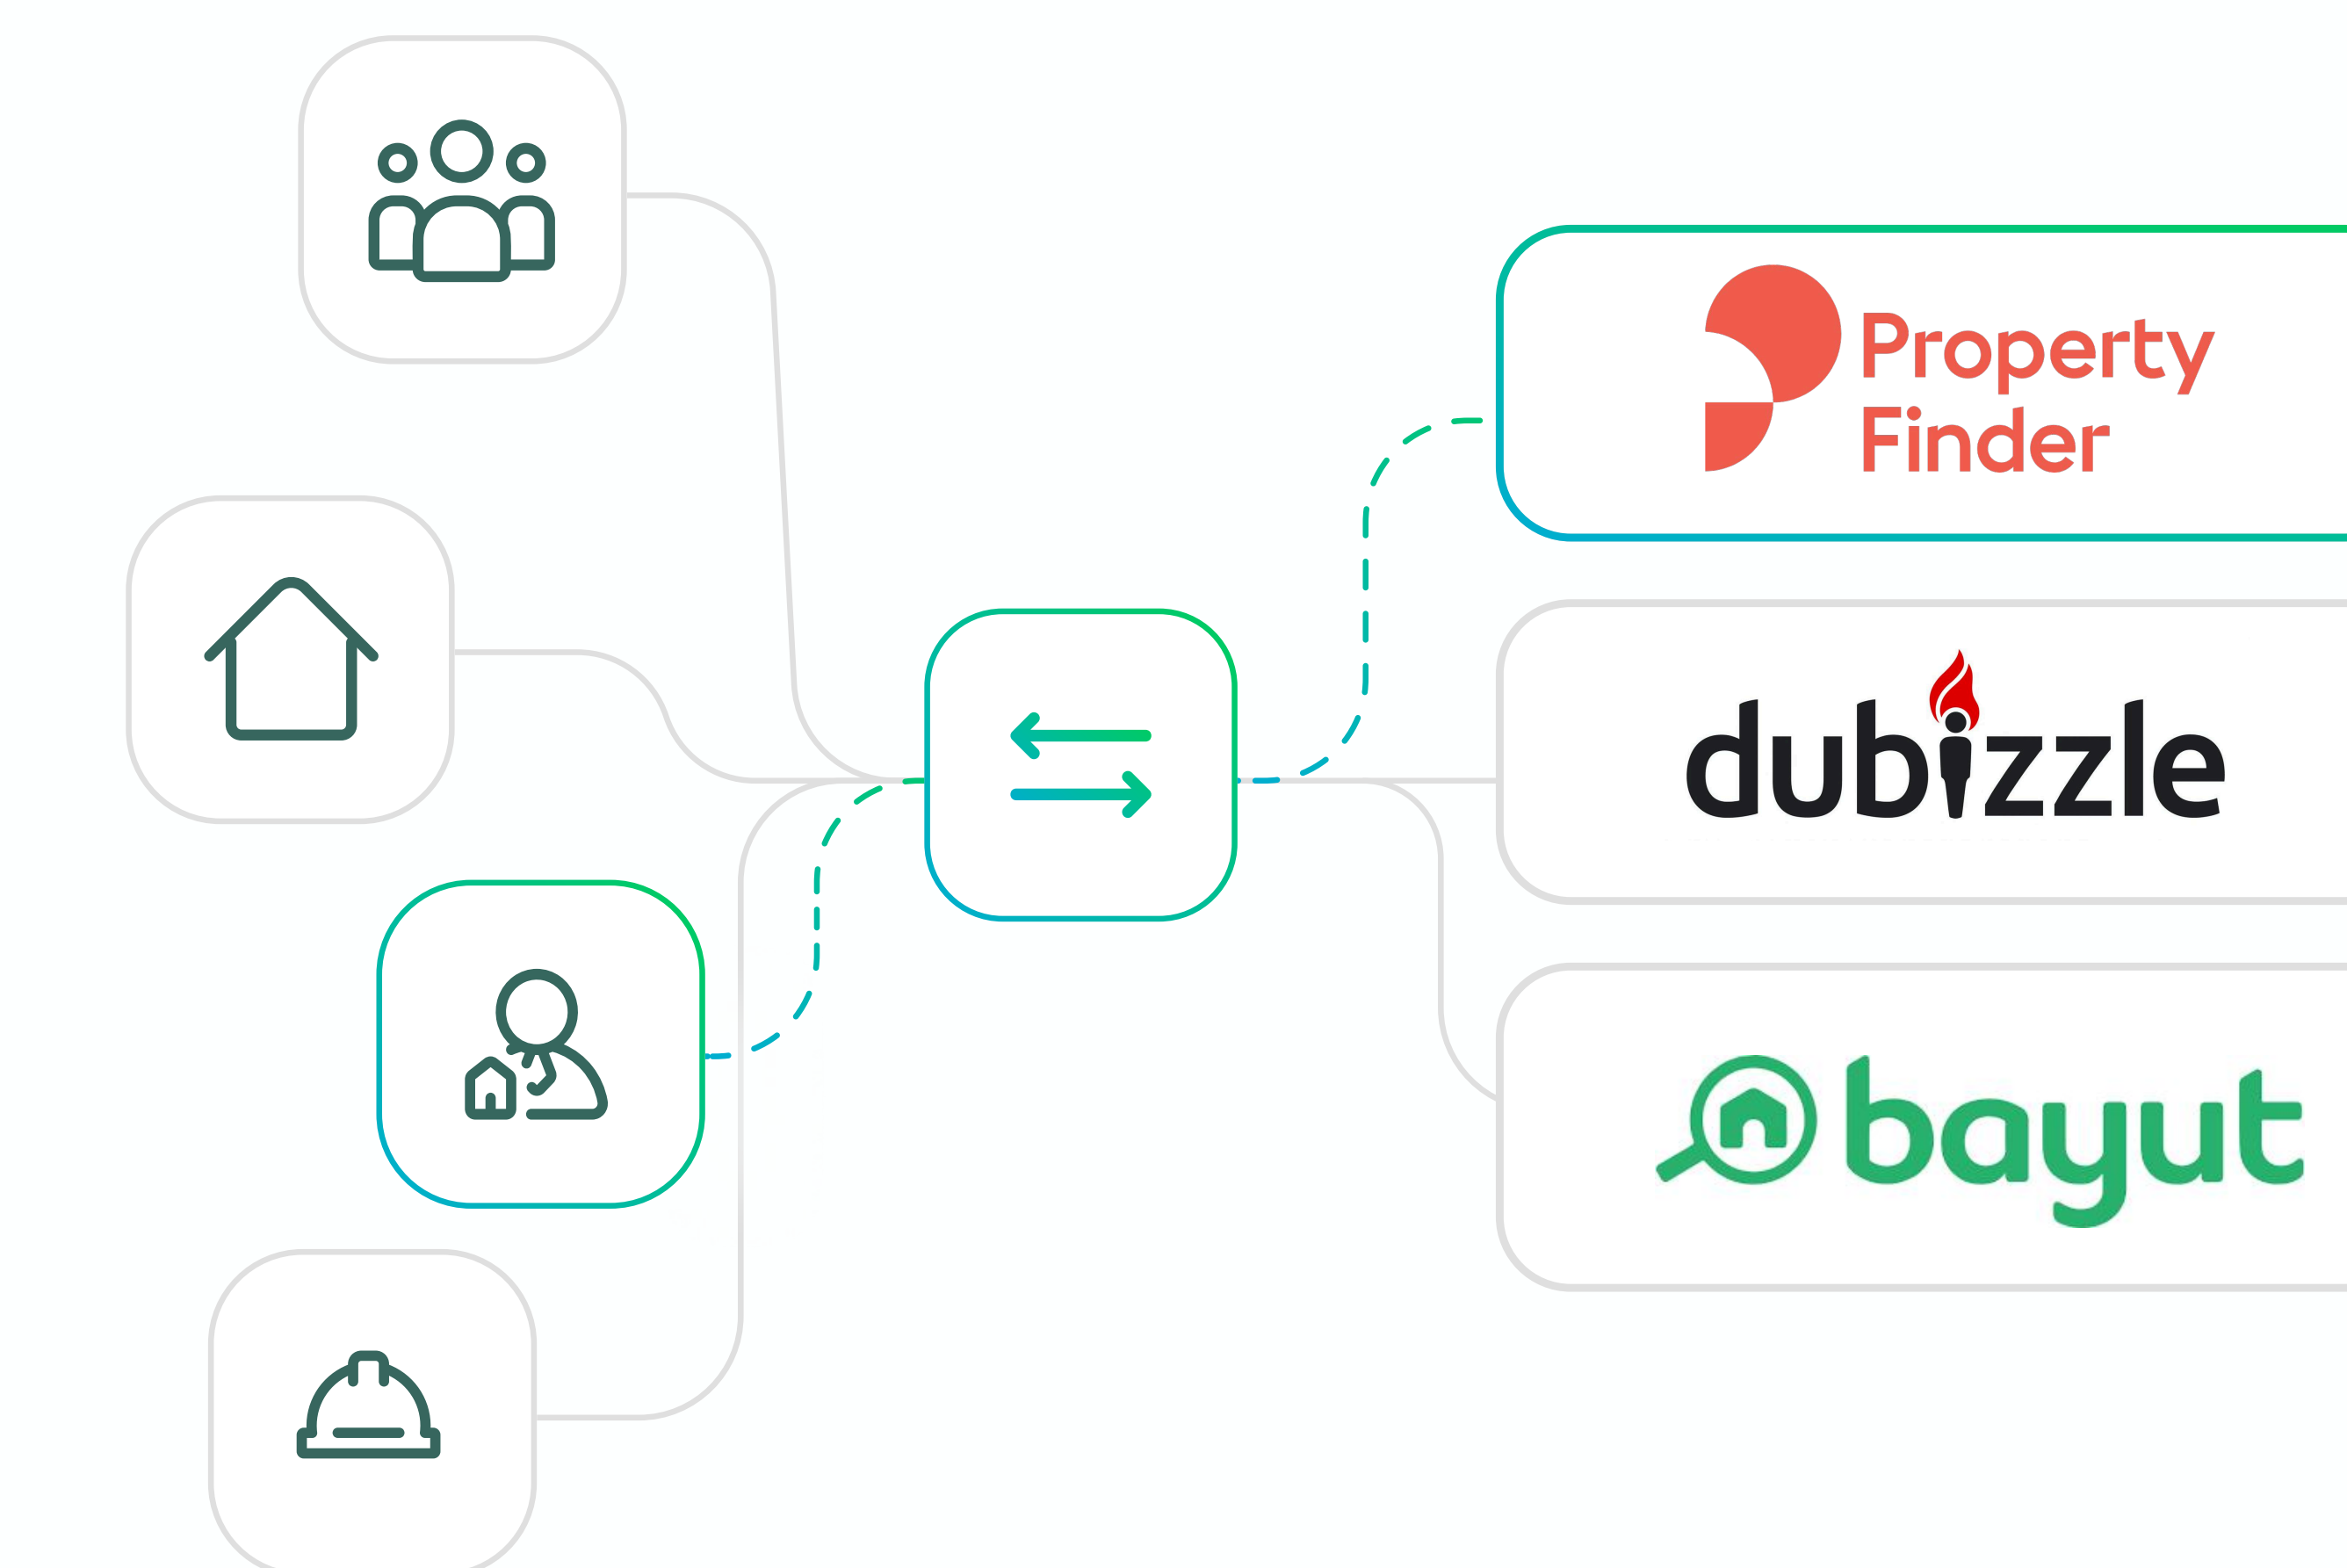

Turn Every Enquiry Into a Structured Workflow.

- ✓ Capture leads from multiple sources
- ✓ Automatically distribute enquiries
- ✓ Build consistent follow-up processes
- ✓ Track every interaction
- ✓ Schedule reminders and viewings
- ✓ Move opportunities through your pipeline

From enquiry to deal, **nothing gets lost.**

Listings & Inventory

Your Listings Are More Than Portal Ads.

- ✓ Manage your complete property inventory.
- ✓ Keep owner information connected.
- ✓ Track listing status, availability & permits.
- ✓ Publish listings to property portals.
- ✓ Keep your team working from the same data.

Portals market your listings. **Pixxi is where you manage them.**
